

ROCK SOLID FREEDOM

PAYware Mobile is a payment solution for iPhone™ that securely sets merchants free. With a PAYware Mobile card encryption sleeve and app, merchants can swipe a card, capture a signature and ring up sales — with rock-solid security and reliability — wherever business happens.

PAYware Mobile

The Simplicity And Flexibility Merchants Want

- Simply slide on the card encryption sleeve to iPhone 3G or iPhone 3GS and start accepting credit card and signature-based debit card transactions
- Works in conjunction with VeriFone's hosted gateway service, PAYware Connect
- Includes integrated capacitive stylus to allow for signature capture
- Emails receipts to customers with customized layouts and fields to highlight special promotions
- Geo-tagging with latitude and longitude points identifies transaction location to help with dispute resolution
- View transaction history via iPhone or via the gateway portal

The Secure Way To Accept Payments On An iPhone

- Secures customer data and significantly reduces liability risks for merchants
- Provides end-to-end security with VeriShield Protect from the moment a card is swiped so sensitive, unencrypted cardholder data never enters iPhone
- Lets account administrators activate, manage and even deactivate gateway access of iPhones that are lost or stolen
- PA-DSS approved payment application

The Savings Merchants Demand

- Saves time and reduces transaction fees with swiped, card present transactions
- Eliminates manual entry errors and reduces deposit slips and manual receipts
- Enables merchants to efficiently manage their business with extensive reporting via the gateway portal – such as transaction detail, post-settlement and transaction search

The Confidence Of Dealing With VeriFone

- The only iPhone payment application that draws upon the extensive expertise and experience of VeriFone — the leader in payments
- Ensures added peace of mind thanks to VeriFone's outstanding reputation for quality, reliability and security — to give you a competitive edge with merchants
